

David M. Sorboro, D.D.S., M.S.
Dr. and Staff:

I visited your office on April 21, 2011. On that date I experienced the finest medical care I have ever experienced (and I am 70)!
It actually began before the visit. I have about a 60 mile drive. Your office went out of their way to accommodate my time schedule.
Upon arrival I was faced with a nicely designed office and pleasant greeting. Dr. David explained every step (which I appreciate). The process was almost pain free with his careful hand and caring nature.

A follow up call a few days later to find out how I was feeling, was over the top. How few medical offices ever do this.
I appreciate your expertise and "real" customer service.
