

Dear Dr. Sorbars,

May 11, 2001

I want to express my very warmest thanks for your kind manner, caring and wonderful skill in "fixing my teeth". I've been through hell and back these past 9 mo. ~ my husband's illness began in Aug. ~ misdiagnosed + finally on Nov. 8 we were told he had terminal cancer ~ he lasted 5 weeks. I was his cheerleader throughout his sickness and was left with a business to run and many, many obligations. I told my children that when things settled down, I was going to treat myself to something very extravagant... little did I know it would be a root canal, crown, dental work + this surgery (I don't have dental), but it was so worth it and how lucky I am to have had you do my surgery. I've been around all sorts of specialists - particularly of late, however, rarely do you find a doctor as kind and caring as yourself ~ I wanted you to know what a difference you made. Your business put aside my fears, and the time you took explaining things to me prior to the surgery helped a lot.

In short, I truly appreciate you.
Thank you!!
☺

Sincerely,

Andrea Petkash
