North Olmsted, Ohio 44070

Many thanks

September 4, 2002

Dear Dr. Sorboro:

It has been two months since my periodontal procedure and I could not be more pleased! I only wish I had done it sooner; however, the thought of it caused me to postpone the surgery.

Your suggestion that I do it in one session while asleep was the way to go! After Dr. Flesher (who was outstanding) put me quickly to sleep, I just had a pleasant dream for the next 21/2 hours. Upon awakening there were no side effects and very little discomfort. By following your post-operative instructions, my mouth has healed nicely.

I would like to commend both you and Dr. Flesher for your follow-up calls to make sure I was doing fine; this is rarely done today in medicine/dentistry. It must be because you both went to OSU! Also, I would be remiss in not recognizing Alice, your office manager, for her efficiency, kindness, and support. Your office is a winning team!

Sincerely,

Jim Turrittin
